

WHO IS THIS DAY FOR?

The information day is for everyone interested in taking part in the call. Participation at the event is free-of-charge, but registration is compulsory.

ON-LINE REGISTRATION:

<http://www.tetalap.hu/biobro2010>

Registrations will be accepted on a **'first come first served basis'**. Please note that we may have to limit the number of representatives from each organisation, if the event is oversubscribed.

Please, register **before 6th September 2010**.

PROJECT IDEAS

Participants are invited to present their project ideas (4 ppt slides max in 5 minutes) during the brokerage event. These should describe a proposal idea and introduce the proposer's specific competence in relation with the call.

Please, indicate in the registration form if you want your project idea to be included in the project idea catalogue and/or to give a short presentation during one of the sessions of the brokerage event.

Project idea (form, presentation) **must be sent by 30th August 2010** to the address:

zsuzsa.antal@tetalap.hu

and Biotechnologies

Info Day and Brokerage
Event on Call
FP7-KBBE-5-2011

13th September 2010
Charlemagne Building, Brussels

PRACTICAL INFORMATION

The objective of the event is to bring together research stakeholders, from both the public and private sectors from the EU and Third countries, together with Commission officers and provide information and ground for discussion and networking.

The event will include a general introduction with presentations of the main features and areas addressed by the 2011 call (published on 20th July 2010: <http://cordis.europa.eu/fp7/dc/index.cfm>) followed by an important international panels discussion. A brokerage session, with flash presentations of proposal ideas and pre-arranged bilateral meetings to discuss potential partnerships in FP7 proposals will be held in the afternoon.

International cooperation between EU and non-EU countries is an important aspect of FP7 and is an integral part of Theme 2 on Food, Agriculture and Fisheries, and Biotechnology. International cooperation is implemented in Theme 2 via several mechanisms, including:

- Opening up all research activities to researchers and research organisations from third countries;
- Specific International Cooperation Actions (SICA).

SMEs relevant research will gain reinforced importance in WP 2011. Topics with mandatory SME participation are included with the aim to spend 15% of the call budget on SMEs. The brokerage event will also offer networking possibilities for interested SMEs with up-to-date guidance on participation, in cooperation with the Enterprise Europe Network.
